

MANTA

HARD FLOOR VACUUM ATTACHMENT

You don't have to be a clean freak to love the Manta. Hundreds of soft tufts along the generously wide 16" vacuum lift the dirt right from the floor and from any edge in record time. The "manta-ray" shape and swivel neck make it easy to navigate around furniture legs. When finished, vacuum the dust around its edges or remove the entire pad from the base and throw it in the wash. Extra mop pads are sold separately. Manta fits all standard 1-1/4" diameter wands. *It couldn't be quicker or easier to vacuum your hard surface floors!*
